

MINISTRY OF ECONOMIC
DEVELOPMENT AND DIGITALIZATION
OF THE REPUBLIC OF MOLDOVA

Subject: Invitation to the EU-Moldova Investment Conference

Dear partners,

We have the pleasure to invite you to the **EU-Moldova Investment Conference** which will be held on 4 June 2026 in Chişinău. The conference is jointly organised by the *Government of the Republic of Moldova* and the *European Commission*, with the support of the Invest Moldova Agency and the Ministry of Economic Development and Digitalisation of the Republic of Moldova.

The conference will mark one year since the launch of the EU's Growth Plan for the Republic of Moldova, a transformative economic and political support package with the aim of boosting Moldova's economic growth to ensure its economic convergence with the EU in the medium-term.

The conference is conceived as a focused exchange between policymakers, investors, and international financial institutions on how the Republic of Moldova's reform agenda is translating into concrete investment opportunities for the private sector.

Particular focus will be put on the investment pipeline in the country and the conditions required so that these investments materialise. The conference will also feature investment announcements and the signature of Letters of Intent between the European Commission, the Government of the Republic of Moldova, International Financial Institutions, and private sector partners.

The full agenda and background information can be found on our official website: <https://euinvest.md>. In order to ensure your participation, we would very much appreciate your registration on the website by the **31th of May**.

For any additional information or assistance, please do not hesitate to contact the representatives of the Invest Moldova Agency.

Sincerely,

Eugeniu Osmochescu
Deputy Prime Minister,
Minister of Economic Development & Digitalisation
of the Republic of Moldova
