# *Become a partner of the third year of the Bold Future 2026 conference*

At Frank Bold, in collaboration with Change for the Better, the Modern Energy Association, and the Business Leaders Forum, we are developing a program focused on achieving business success without the need for compromise.

The conference will cover topics ranging from renewable energy to public-private sector cooperation to the direction of business in the current geopolitical environment.

We emphasize not only a high-quality program, but also the support of cooperation, intensive networking opportunities, and the creation of business opportunities.

## *Become part of the success*

*Join those who follow and set trends.*

*Gain unique know-how at practical workshops with experts.*

*Make your brand and projects visible.*

*Participate in a conference that has an impact.*

*Connect with experts and new business partners.*

## *Connect With the People Who Matter*

**IVAN JAKÚBEK**  
CHIEF STRATEGY  
OFFICER EUROWAG

**JAN BARTA**  
FILANTROP, A PARTNER  
OF PALE FIRE CAPITAL

**DAVID NAVRÁTIL**  
CHIEF ECONOMIST AT  
ČESKÁ SPOŘITELNA

# Conference program

A full-day program, top speakers, unique know-how. Morning keynotes in the main hall, afternoon full of workshops and a large space for networking.

Morning:  
Forum Hall Stage

## The Future of the Czech Republic: Business in a New Era

What developments can Czech business and the public sphere expect in the era of Trumpism, and how do we need to change to survive global competition?

Afternoon:  
Workshop zone

## Czech Energy: Decentralization and Security

Discover trends in the Czech energy industry – grid modernization, acceleration of renewable sources, software solutions for electricity sharing and cybersecurity.

## Sustainable urban growth and affordable housing

What are the opportunities of the amendment to the Building Act, how to support affordable housing and make spatial planning more efficient? Practically with leaders of real estate, local governments and the state.

## Responsible business and digitalization

With innovation experts, we will look at legal tech, automation, and artificial intelligence as tools that speed up processes, reduce administration, and improve services.
